7.07 MAILBOX INSTALLATION.

A. Purpose. This Ordinance is intended to establish standards for the safe installation of mailboxes within the right-of-way adjacent to highways in Town of Cooperstown. The term “mailbox” means any device used to receive mail, newspapers, packages, or similar items and the term includes any structure used to support the mailbox.

B. Authorization. A person may install and maintain a mailbox within the right-of-way

adjacent to or near the person’s residence provided the mailbox complies with all requirements established by the United States Postal Service and all requirements established by this ordinance.

C. Requirements.

1. Location. A mailbox must be placed on the right side of the highway, except in the case of one-way traffic; at the far side of the driveway; and a minimum of 60 feet from any intersecting road in the direction of the delivery route.

2. Setback. The mailbox must be set back a sufficient distance so that no portion of the mailbox extends over the traveled portion of the highway or the outside edge of the shoulder.

3. Height. The bottom of the mailbox receptacle must be a minimum of 42 inches to a maximum of 48 inches from the street surface.

4. Material. A mailbox must be constructed of light sheet metal, plastic, or a similar material. The mailbox must be firmly attached to any support structure in order to minimize the possibility of its separating from the structure if struck by a vehicle.

5. Number and Separation. No more than two mailboxes may be mounted on a single support post. A light weight newspaper box mounted below a mailbox will not be counted toward this limit. Support posts must be separated by a distance that is equal to three-quarters of the height of the support posts.

6. Support Structure. A mailbox support structure must be designed to break off or move out of the way if struck by a vehicle. No support may extend more than 24 inches into the ground; be placed in concrete; or fitted with an anchor plate. A metal support may have an anti-twist device if the device does not extend more than 10 inches below the ground surface. The maximum material specifications for a support post are:

- a. A square wood post must not be larger than 4 inches by 4 inches nominal.

GENERAL CODE OF ORDINANCES
CHAPTER 7 – PUBLIC SAFETY- TRAFFIC

- b. A round wood post must not be larger than 4 inches in diameter.
 - c. A metal pipe must have an inside diameter of 1 1/2 inches or less.
 - d. A metal channel must weigh less than 2 pounds per foot.
- D. Variance. The Town Chairman is authorized to grant a variance on a case by case basis to any requirement specified in subsection C provided the variance is authorized in writing and does not compromise public safety.
- E. Enforcement. This Ordinance may be enforced under the provisions of Wisconsin Statutes Section 86.04 pertaining to highway encroachments.
- F. STATE LAW ALSO APPLIES. Nothing contained herein shall be deemed to limit or restrict the application of any State Law or Administrative regulation of any State Agency regulating this subject.

7.08 SNOWMOBILE ROUTES.

- A. MANITOWOC COUNTY PUBLIC SNOWMOBILE TRAIL. The Town of Cooperstown may designate snowmobile routes, pursuant to Chapter 350 Wisconsin Statutes:
- B. The Town Board will annually in July review requests from Snowmobile Clubs for routes on Town of Cooperstown road right-of-way.
- C. RESTRICTIONS. Any abuse of this privilege will then deem necessary action by Town Board to withdraw usage.

7.09 PENALTY. Except as otherwise provided, any person who violates any provision of this chapter shall be subject to a penalty as provided in Chapter 15 of this General Code.
